

# TS OFF TO THE MARINES

Suffered Heavy Losses in Gallant Fighting—Want More Men from this District.

The following letter was given the Daily Citizen by C. V. Jones, local military recruiting officer for this district.

Gentlemen:—The whole world have hats off to the United States Marines. Their magnificent work at Meuse-Thierry and at other points in France has sent a thrill of pride through every American. They have lived up to all the traditions of their glorious record which is a very brilliant one clear back to 1798 when they were founded. In all parts of the world they have been "First to Fight" and today they are holding one of the most dangerous sectors on the whole front.

They have suffered great losses in their ranks. Also because of their splendid record, General Pershing has asked for another division, 40,000 men to be sent at once. At the present rate of recruiting it would take four months to raise this division. IT MUST BE RAISED IN THIRTY DAYS. General Pershing cannot wait four months for this kind of men. This district has been furnishing twenty to twenty-five men a month. WE MUST RECRUIT ONE HUNDRED MEN IN THE NEXT THIRTY DAYS. This district must be represented in the Marines.

The Marines cannot draft men. They have no method of obtaining recruits excepting through voluntary action. Every Marine must be a volunteer. Out in this section where the Marines are not well known it is necessary to educate the young men to the fine opportunities in the Marine Corps.

Yours very truly,  
C. V. JONES,  
Civilian Recruiting Officer.

## BILLY LEE DEAD

A. R. Veteran Passed to His Reward—Died at Columbus Last Night.

Friends of Wm. Lee, of Columbus, telephoned to the Daily Citizen today and informed us of Mr. Lee's death last night. Mr. Lee is one of the pioneers of this county and is widely known. The funeral is expected to be held from the home at Columbus some time Thursday. Full details of the death and funeral are not at hand at this writing.

Do you get up at night? Sanol is surely the best for all kidney or bladder troubles. Sanol gives relief in 24 hours from all backache and bladder troubles. Sanol is a guaranteed remedy. 50c and \$1.00 a bottle at the drug store. For sale by Scott Drug Co.

Now that professional baseball players have been classed as under the "work or fight" ruling, there is a good deal of speculation on just what will happen to the pool and billiard halls. This line of business is already hard hit by the war and what with war tax on tables and license on the business it probably would be no great sacrifice for the owners to close their places of business for the duration of the war. Of course, it is generally understood nothing can in justice be done at this business until the administration takes some action on the saloon question. Anybody who edit that a billiard hall is much more edifying than a saloon, which takes a man's time, his money and is an injury to his physical well being. Men addicted to the drink habit will travel many miles and spend much time and money to procure liquor, these things cannot be said of the billiard hall, but some authorities go so far as to say that the saloon and the billiard hall must both go if the war lasts any great length of time.

"A Stitch in Time Saves Nine"—Don't delay—use Doan's Kidney Pills.

Profit by this nearby resident's experience.

Mrs. J. Haley, 2014 Morgan Ave., Parsons, Kas., says: "I caught a severe cold on my kidneys and it brought on backache. I had sharp pains through my loins when I was stooping and lifting and I often became nervous. The least little thing went wrong upset my nerves. At last I had to keep on turning from side to side on the other, hardly getting a wink of sleep. On a friend's advice, I took two boxes of Doan's Kidney Pills and they relieved all the ailments. M. B. Rich and his daughter, Miss Rich, started Tuesday on an auto drive to their former home, Siloam Springs, Ark. They were accompanied by C. M. Mitchell and J. W. Kaltenbach. Mr. Rich will spend most of the week there.

E. B. Hartpence has gone to Kansas City to take a position in the Traffic department of the Western Union Telegraph company. He has been in charge of the local telegraph office since it was established up-town. Mr. C. L. Brewer from the Council Grove office, arrived Monday to relieve him.

### SOLDIER LETTER.

Great Lakes, Ill., 7-20-18.

Dear Father and Mother and Loved Ones:—I received your letter all O. K. Glad you got my clothes. Were they in good shape? It is pretty warm up here in the day time but cool nights. Say, you tell papa to take out that Liberty Bond if he wants to, but leave me some money in the bank to draw on. I will need a little along for we won't get any until about October 20. Don't know why that is. I will write to you when I want some money; send it by registered mail—not by check, I could not cash it here.

This morning was big inspection. We have to dump all our clothes out and pile them up neatly for the Gold

Bands to inspect them. For to sleep in we each have a couple of woolen blankets and a canvas hammock which is swung about five feet off the deck. The first night you could wake up any time and hear them hitting the floor. One fellow fell out across a rod and broke his nose. They are so narrow and high up they are hard to stay in. will be out of detention the 24th of this month. Don't suppose you I will be out of detention the 24th tell you: It means that I spent one week in Camp Farruguet and the rest of my detention in Camp Perry, which is 21 days in all. The next camp is Camp Ross where we will stay 72 hours before we are shipped east to some sea port. Don't know just where.

When our detention is up we get a 12 hour shore leave to go to Chicago or any place we want to. The next time our company gets leave it will be a 24 hours leave. Don't know just when that will be.

They have visitors on Wednesday afternoons and Sundays. I wish you folks lived close so you could come out and make me a visit. There are thousands of people come out here every Sunday. Wish you folks were to see all of the boys scramble around when the mail and the packages are given out, for they sure all like to get letters from home. Don't forget about that money I told you about.

We have a ship store in regiment to buy anything we want. Well guess I had better close for this time, from your loving son,

Frank Congdon, Jr.,  
Camp Perry, Company B, Regiment 5,  
Great Lakes, Illinois.

Write soon.

THE KANSAS CITY  
LIVE STOCK MARKET.  
Furnished by Greer & Company  
Stock Yards—Expect Slow  
Market Rest of Week.

Receipts of cattle were liberal yesterday, 21,000 on sale here. The top corn fed steers sold at \$18. The market is steady on this class, but all others are slow to a shade lower. The best cows sold a little stronger, though the common and medium ones sold slowly. Veals are steady, top \$14. Stockers and feeders are in better demand. We sold fair 1,000 pound feeders at \$11.75. Bulls and stock calves are steady.

We expect a liberal run of cattle the remainder of the week and a slow market.

We quote good to choice corn steers, \$15.70 @ \$18.15; medium to fair, \$13 @ \$14.75. Good to choice cows, \$10 @ \$13.40; medium to fair, \$8 @ \$8.75. Good to choice fat steer and heifer yearlings mixed, \$12 @ \$13.25; medium to fair, \$8 @ \$10.75. Canners, \$6.25 @ \$7. Bulls, \$7.50 @ \$11. Good to choice veals, \$13 @ \$14.

Good to choice feeders, \$11.50 @ \$16.80; medium to fair, \$9.55 @ \$11. Good to choice stock steers, \$10.45 @ \$12.55; medium to fair, \$7 @ \$6.95. Good to choice stock cows and hifers, \$8 @ \$9.25; medium to fair, \$7 @ \$7.50. Good to choice stock calves, \$9 @ \$10.50; medium to fair, \$7 @ \$8.50.

With 9,000 hogs here yesterday and 37,000 in Chicago, our market was 25 cents higher. Top here \$18.55, Chicago's top, \$19. The bulk of sales ranged from \$18.10 @ \$18.50. The pig market is higher, prices from \$14.50 @ \$17.50. Best lights brought \$18.50, 40 cents higher.

There were 4,000 sheep here yesterday. Market was steady to 25 cents lower. Top lambs, \$8. Goats were steady.

The commission firms, traders, order buyers and speculators at the Kansas City Stock Yards, will all be under the Department of Agriculture, under license from the government beginning July 25.

### MANAGER PLAN IS A SUCCESS

For First Time in History Of Kansas All State Institutions Kept With Their Appropriation.

For the first time in the history of Kansas of all the state institutions have kept their expenditures for maintenance, repairs and general operations within the appropriation given them by the legislature. This speaks well for the efficiency of the state manager and single board system of handling the business of many state institutions. James A. Kimball, state manager, filed with the governor today the report of the board of administration. This board and the state manager were created by the 1917 legislature, despite strong opposition, to handle the business affairs of all the state educational, penal and charitable institutions.

The board went to work July 1, 1917, with deficits aggregating \$53,000 hanging over these institutions. These deficits have been entirely wiped out and the institutions will have small credit balances. This has been accomplished in the face of tremendous increases in the prices of all the supplies used at the institutions. It was done simply through the efforts of a close, intimate and central organization, with the active co-operation of the executive heads of all the institutions. At the penitentiary there was a deficit of \$46,812.71; at the reformatory the deficit was \$6,102.12, and at the school for the blind the deficit was \$407.93 when the board of administration and the state manager took charge a year ago.

The state institutions have been working in closer harmony than ever before, each helping other institutions in various ways.

Recent rains in Kansas have put the wheat land in excellent shape for plowing. Farmers are urged to get their plowing done early in preparation for next year's crop.

"Now is the time for the tractor to do its work," says William M. Jardine, president of the Kansas State Agricultural College. "We cannot stress too strongly the importance of early and thorough seedbed preparation for wheat. It will pay farmers well to get their land ready immediately. They could well afford to pay a good price for getting their land plowed. The extra yield obtained would take care of all the expense incurred in getting the land ready and keeping it ready until planting time."

"Even in districts where no rain has fallen this work need not be delayed, for the tractor's greatest efficiency is in plowing stubble land in July and August when the weather is hot, the ground dry and the draft heavy. There should not be an idle tractor in the state for the next sixty days, or as long as there is wheat ground to get ready."

James P. Evans, representing the Industrial division of the International Y. M. C. A., has been in Baxter Springs recently conferring with the Chamber of Commerce and others relative to the establishment of a Y. M. C. A. service throughout the mining field similar to that established at the various army cantonments. Upon Mr. Evans's report will depend when the service will be established.

A collection of hardware, consisting of the handles of sixteen tablespoons, 161 pieces of wire varying from one inch to two inches in length, eighteen trousers buttons and a buckle one inch square, was found recently in the stomach of a body that had been sent to the university medical school at Lawrence for dissection. The body was that of a former patient at the state hospital for the insane at Osawatomie and the physicians' record of the case declared that the patient had died of acute indigestion.

With her husband fighting for Old Glory in the front line trenches of France, Mrs. Beulah Ione West died at Salina recently. She was 20 years of age and was married to Hedford West last Thanksgiving, while the soldier husband was in training camp in Texas.

Charley Livingston, son of Mr. and Mrs. George Livingston of Lewisburg, is dead at Camp Gordon in Georgia of typhoid fever. He had been in camp about five weeks. His parents went to his bedside two weeks ago.

While wading in the Solomon river near Smith Center, Charles Dick, 17 years old, stepped into a deep hole and was drowned. His body was recovered shortly afterward.

Lawrence B. Morris, county attorney, has received his appointment as United States commissioner for the Junction City district, succeeding George W. Chase, whose term has expired. Mr. Chase held the office sixteen years in all, half of the time under appointment by President Harrison.

The prospective yield of winter wheat in Kansas fell off nearly 6 million bushels from June 1 until harvest as a result of the extreme hot weather, according to a report issued by Edward C. Paxton, field agent for Kansas of the United States Department of Agriculture.

The condition of the wheat at the time of harvest was estimated at 73 per cent, forecasting a total yield of 91,571,000 bushels, as compared with the June forecast of 97,114,000 bushels. The greatest damage from dry weather occurred in western and northwestern counties, the report says. East of a line running through Topeka and Wichita to the Oklahoma border the damage was negligible, it was stated.

Corn was in good condition up to July 1, the report says, but at present is needing moisture. The condition of corn on July 1 was estimated at 83 per cent, which is three points above the 10-year average on this date. This year's crop is forecast at 131,312,000 bushels.

"Kansas' 2,261,000 acres of oats promises 64 per cent of a normal crop," the report says, "the depreciation since June 1 being 16 per cent. A production of 52,093,000 bushels is forecast."

During the last month the condition of barley slumped from 80 to 50 per cent and the yield is forecast at 9,150,000 bushels. The Kansas potato crop is rated at 55 per cent, and it is estimated the production will be 3,720,000 bushels."

The names of fifty-three students of Kansas University who will be sent to Camp Sheridan July 18 for two months' military training, have been announced by the committee in charge of the organization of the Reserve Officers' Training Corps. The list includes twelve students from Kansas City, ten from Lawrence and four from Topeka. These students, after two months military training at Camp Sheridan, will be given certificates of proficiency and will constitute the corps of instructors for the cadet regiment that will be formed at the university next September. In addition to the students who will go to Camp Sheridan, there are to be five members of the university faculty. These have not been chosen as yet although there have been eleven applications received. All who go will be required to pass a physical examination similar to that required of those entering the officers' training camps.

Fragments of a burned body found in the debris of a hotel destroyed by fire at Kinsley lead to the belief that V. W. Wright of Norborne, Mo., banker, stockman and farmer, with large property interests in Kansas and Missouri, has lost his life. Recently his son, G. G. Wright, learned from one of the hotel girls that he had taken a room for the night at the hotel. The body was found where this room had been, and two persons who knew him say he occupied the room the night the hotel was burned. The hotel was a frame structure and burned so quickly that guests had difficulty in escaping. Mr. Wright was about 80 years old.

Glucose may now be permitted as a substitute for sugar in the concoction of so-called soft drinks. This was decided at the last annual meeting of the state board of health in conformation with the government's instructions to allow the substitution in view of the present war emergency. Several new food standards were established. Canned peas must now be graded into six different sizes and the grade must be marked on the can.

Fred Schulte, an adopted son of Frank Pittman, an Atchison county farmer, and who enlisted in the marines over a year ago, has been killed in action in France. His name was in the casualty list published July 4. No other notice has been received by Mr. Pittman.

A threshing machine operated by Charles McMillen south of Oatville in Sedgwick County was condemned by the United States Food Administration and ordered sent back to the manufacturers recently. Farmers complained the machine was wasting wheat and Delano Bechtel, threshing expert for Kansas, was sent by Walter Innes, federal food administrator, to investigate. He found two and a half bushels of grain flowed into the wagon while three pints of threshed wheat was blown into the straw, a wastage of four of every hundred bushels. Tight bottom wagons also were ordered for the threshing outfit.

Notice has been sent to Leavenworth, that the taking of testimony in the ouster suit against Mayor James C. Davis will open August 12. Senator Carry E. Carroll, the master appointed to take testimony, will be there on that date and the hearings will be held at the court house. Mayor Davis will remain suspended pending final action in the supreme court unless the suit against him should be withdrawn.

Mrs. Cecilia M. Sherman, a pioneer of Atchison county and Buchanan county, Missouri, died suddenly while visiting her daughter in St. Joseph, Mo. She moved to Atchison thirty-five years ago from Buchanan county, where she had lived since girlhood.

Miss Vera Barger, in charge of Y. W. C. A., activities at Junction City for the last year, has been called to undertake similar work in Russia and will leave soon for New York for a short period of instruction before sailing.
